

RFH Precision Medical Overview

Mission

To empower and rejuvenate veterans by providing a sanctuary of healing and recovery.

Vision

Our vision is to be the most veteran centric service organization on earth; to build a place where all veterans can come to find the healing they need.

RFH Precision Medical Center

The RFH Precision Medical Center, which will be located just outside VIR's main gate in Alton, VA, is dedicated to the specialized treatment of PTSD and TBI, leveraging advanced therapeutics to foster resilience and well-being. As veterans serving veterans, our foundation is built on strength, courage, and commitment to transforming lives through compassion, innovation, and unwavering support.

RFH Precision Medical Program Overview

The RFH Precision Medical (RFH-PM) Program consists of 30-60 day treatment plans which will leverage advanced therapeutics that blend both Eastern and Western Medicine aimed at giving the best holistic and customized care possible. Veterans going through these treatment programs will be housed at the RFH Veteran Resort approximately 5 miles from the treatment facility.

Some of the advanced therapeutics employed in the programs consist of Magnetic Resonance Therapy, Hyperbaric Oxygenation Therapy, Cryotherapies, Blood Flow Restriction Therapy, Functional Medicine (including customized nutrition/ supplementation plans and hormone balancing), Platelet-Rich Plasma (PRP) Injection, Regenerative Medicine Injection (as available by law), and IV Therapy.
